TEST RESULTS

Labeling Review

Tested Property	Test Method	Requirement	Assessment
Fiber Content Label	USA FTC 16 CFR 303	The label shall be conspicuous and shall be of such durability as to remain attached to the product . The generic names and percentages by weight of the constituent fibers present in the textile fiber product and in order of predominance by weight with any percentage of fiber or fibers. The name, or other identification issued and registered by the Commission, of the manufacturer or importer or dealer of the product. The name of the country where such product was processed or manufactured.	P Present
Care Label	USA FTC 16 CFR 423	Hat is exempt from FTC 16 CFR 423. However, if a care label is present, label must be permanently sewn to product. If the product is packaged, displayed, or folded so that customers cannot see or easily find the label, the care information must also appear on the outside of the package or on a hang tag fastened to the product. Care labels must state what regular care is needed for the ordinary use of the product. In general, labels for textile wearing apparel must have either a washing instruction or a drycleaning instruction. If washing instructions are included, it must state whether the product should be washed by hand or machine. If drying instructions are included, it must state whether the product should be dried by machine or by some other method. If ironing instructions are included, it may state an ironing temperature that may be used. If bleaching instructions are included, it shall specify the applicable bleaches. If drycleaning instruction is included, it must state at least one type of solvent that may be used. If all commercially available types of solvent can be used, the label need not mention any types of solvent. If there is any part of the drycleaning procedure which consumers or drycleaners can reasonably be expected to use that would harm the product or others being cleaned with it, the label must contain a warning to this effect. If the product cannot be cleaned by any available cleaning method without being harmed, the label might say "Do not wash—do not dryclean," or "Cannot be successfully cleaned."	P Present

TEST RESULTS
Labeling Review

Tested Property	Test Method	Requirement	Assessment
Country Of Origin	USA FTC 19 CFR 134	19 CFR 134 establishes the following labeling requirements: 1) Imported products made entirely abroad must be labeled with the name of the country where they were processed or manufactured. 2) Products made entirely in the US of materials also made in the US must be labeled "Made in U.S.A." or with an equivalent phrase. 3) Products made in the US of imported materials must be labeled to show the processing or manufacturing that takes place in the US; however the label does not have to identify the country of origin of the imported materials (i.e., "Made in U.S.A. of imported fabric" or "Knitted in U.S.A. of imported yarn"). 4) Products processed or manufactured in part in the US and in part abroad must identify both aspects of production (i.e., "Assembled in U.S.A. of imported components." or "Made in Sri Lanka, finished in U.S.A.").	P Present
General Product Labeling	USA FTC	Per FTC, must indicate an RN number, WPL number, identification of Manufacturer, Wholesaler, Importer or Retailer	P Present

Remark: P=PASS, F=FAIL

Note: The applicant shall be responsible for the authenticity of the content of the label.

REQUIREMENT

FLAMMABILITY

Flammability Test for Clothing Textile (US CPSC 16 CFR PART 1610)

Sample Description:	Audi Fleece Blanket, grey
Actual Fiber Content:	100% Polyester
Actual Fabric Weight:	/

II. These samples are **exempted** from flammability testing in accordance with 16 CFR 1610 Flammability requirement as stated below:(Refer to 16 CFR 1610.1(d)(1&2))

- All fabrics, both plain surface and raised-fiber surface, regardless of weight, made entirely from any of the following fibers or entirely from combination of the following fibers: acrylic, modacrylic, nylon, olefin, **polyester** or wool

COMPONENT BREAKDOWN LIST:

Test Item	Component Description
A	Audi Fleece Blanket, grey
A1	Dark Grey fabric (Shell)
A2	Grey fabric (Binding)

TEST RESULT:

Total Lead Content in Paint or Similar Surface Coating – U.S. CPSC 16 CFR 1303

Remark: No surface coating was found on the submitted sample

Total Organic Fluorine (TOF) Content – Client's Requirement

Test Item	Result (mg/kg)		Conclusion
	Total Organic Fluorine (TOF)	Client's Requirement	
A1	ND	100	PASS
A2	ND	100	PASS

ND = Not Detected (Laboratory Reporting Limit = 10mg/kg)

Method:

Total Fluorine (TF): With reference to ASTM D7359 – 23

Total Inorganic Fluorine (TIF): Analyzed by using acid solution extract total inorganic fluorine and analyzed by ISE

Total Organic Fluorine (TOF): TOF is got through total fluorine minus total inorganic fluorine

Note: mg/kg = milligram per kilogram
" < " = less than

This test report is governed by the Terms and Conditions, available on request or attached to the end of this test report. Attention is especially drawn to the limitations of liability, indemnification and jurisdictional provisions defined therein. This report is issued strictly based on the testing of the samples submitted by you. The test results in this report refer only to the sample(s) actually tested and do not refer or be deemed to refer to any bulk production from which such sample(s) may be said to have been obtained. In the event that Eurofins MTS Consumer Product Testing (Dongguan) Co. Ltd ("ERF") was requested to survey and test any bulk production quantity of samples, ERF, in the absence of any contrary written instructions, performed random sampling of bulk production for testing purposes. Variations in the conditions under which samples are stored, transported, etc., may lead to variations in the test results. ERF cannot anticipate and shall not be held responsible for variations in test results that may be due to factors beyond ERF's control, such as, sample cross-contamination, evaporation of volatile substances due to storage temperature, humidity, etc. This report does not constitute a recommendation, actual or implied, for any specific course of action. Other than the expressed warranties made in the Terms and Conditions of the ERF Test Request Form, ERF makes no warranties or representations either express or implied with respect to this report. In no circumstances whatsoever shall ERF be liable for any consequential, special or incidental damages arising out of, or in connection with this report.
